### **We condemn attacks of oppressive forces of Islamic Republic regime against civilian and peaceful movement in Iran.**

When Mahmmud Ahmadinejad was selected as Iranian president for other four years by Velayatt-e Faqih, people protested against this fraud and stolen votes. This movement improved to many of big cities, in Tehran the capital city of Iran fierce clashes appeared. The sound of people who chanted, “Death to the dictator”, feared Islamic Republic. Authorities whom with using the state press tried to calm the situation, but it seems that they can't stop liberal and rightful sound by killing, detaining and threatening.

One of the strong points of this movement is participate of brave girls and women among protesters. During previous days, we witnessed women were in front row of this movement. Dead and wounded girls and women prove this reality. Death of student “Neda Agha Soltan” with brutality and its video obsessed all tolerant people who are supporters of peace and human rights and it showed real face of criminal authorities of Islamic Republic of Iran against civilian people. Women present in this movement indicate their knowledge and influence in social and political arena of Iranian society which is surrounded by dictatorship, and we believe active role of women in any struggle and movement aids them to be success faster.

We are concerned when hearing suppressive forces of theocratic regime shooting and killing people and de3taining hundreds of civilian and peaceful protesters for threatening them.

System of Velayt-e Faqih as its nature and undemocratic culture during 30 years oppress all civilian and peaceful demonstrate which is a basic right. This method is just used by undemocratic and unpopular regimes in the world, because democratic and legal system doesn't constrain its hegemony.

We believe basic of this common movement show people's grievance against 30 years of lie, fraud, oppression and brutality of Islamic Republic. Cheating votes in this term of so called “election” was a good excuse to all Iranian people who shouted and indicated their demands for freedom.

We condemn brutal oppression against people by suppressive forces of Islamic Republic.  
We ask:
